Tilted 10 is a two-level, 120,000+ square foot unique entertainment and dining experience located inside Cherryvale Mall 7200 Harrison Ave, Rockford, IL 61112. Enjoy craft cocktails, a chef-inspired menu in our full-service dining and bar area or on one of our 12 premium HyperBowling lanes. Compete with friends and family in the two-level black light laser tag arena, two 18 hole black light golf courses, bumper cars, or at one of the over 100 video, pinball, redemption, or prize games. Tilted 10 and Tilt Studio Cherryvale is designed to be fun for all ages. Our event rooms and VIP spaces are perfect for birthday parties to corporate events. Choose one of our tailored birthday, event, or team building packages or custom build your own private event.

**THIS FOLDER CONTAINS COUPONS AND FREE PASSES**

COME EXPERIENCE THE FUN FOR YOURSELVES

# GET OUT OF THE OFFICE

VS

## **MOST OF THE WORKING MASS SPEND 40 HOURS EACH WEEK OF THEIR LIVES IN AN OFFICE OR A DESIGNATED WORKSPACE.**

Office employees spend a lot of their time inside a building, where the physical environments influence their well-being and directly influence their work performance and productivity. Temperature, air quality, lighting and noise conditions in the office affect the work concentration and productivity. Along with office conditions, daily and weekly routines have been shown to play a role in the mental health of employees. Numerous studies have consistently demonstrated that characteristics of the physical office environment can have a significant effect on behavior, perceptions and productivity of employees. Getting outside the office in a different environment helps the brain establish excitement in association with one's job. Breaking the in-office routine has been proven to increase positivity and productivity.

**REMEMBER SCHOOL FIELD TRIPS?  
IT'S A LOT LIKE THAT.**

## **7 BENEFITS TO GETTING YOUR STAFF OUT OF THE OFFICE**

- ▶ Encourages team building
- ▶ Helps avoid burnout
- ▶ Shows care for mental health
- ▶ Employee appreciation
- ▶ Allows for office maintenance
- ▶ Inspires creativity
- ▶ Creates a fun experience

Now imagine that there is a place that has all the amenities a productive meeting room requires yet encourages team building, shows employee appreciation, and is an overall fun experience for everyone.

**WELCOME TO THE NEXT LEVEL OF FUN AT TILTED 10**

# TEAM BUILDING

## TEAM BUILDING IS A STRUCTURED PRACTICE IN THE SKILLS TEAMS NEED TO PERFORM OPTIMALLY AT WORK.

Basketball players practice together to become strong teams. The same is true for office workers. Just as basketball practice helps players systematically develop a range of skills comprising their athletic ability, team building helps workers improve skills across different aspects of teamwork, such as communication, delegation, trust, accountability, and collaboration. If your job is a big game, then team building activities are your practice sessions.

## BENEFITS OF TEAM BUILDING ACTIVITIES

The benefits of a team building event for work include improving the three Cs:

- ▶ Collaboration
- ▶ Communication
- ▶ Camaraderie

Hosting a team-building event can be life changing for your guests. The activities involved with events like these help participants:

- ▶ Act outside their comfort zone
- ▶ Get to know each other
- ▶ Build camaraderie
- ▶ Resolve potential conflict
- ▶ Create a more cohesive work environment

**THESE POSITIVE OUTCOMES HAVE THE POTENTIAL TO HELP BOTH SPORTS AND CORPORATE TEAMS DRASTICALLY IMPROVE THEIR PERFORMANCE BOTH INDIVIDUALLY, AND AS A UNIT.**

# ENHANCING SKILLS

**YOU MAY NOT REALIZE IT BUT THE ATTRACTIONS AT TILTED 10 REQUIRE SKILLS THAT ARE IMPORTANT TO USE AND ENHANCE IN THE WORKPLACE.**

## BOWLING

This is a unique sport that most people don't realize requires an individual and a team to react to the outcome of a team mates turn to throw. Bowling also promotes health. A sedentary lifestyle is one of the leading risk factors for heart disease. Exercise, including bowling, lowers your risk of stroke, heart attacks, diabetes, increases bone density, improves circulation, lowers cholesterol levels and blood pressure, and helps your body utilize oxygen better.

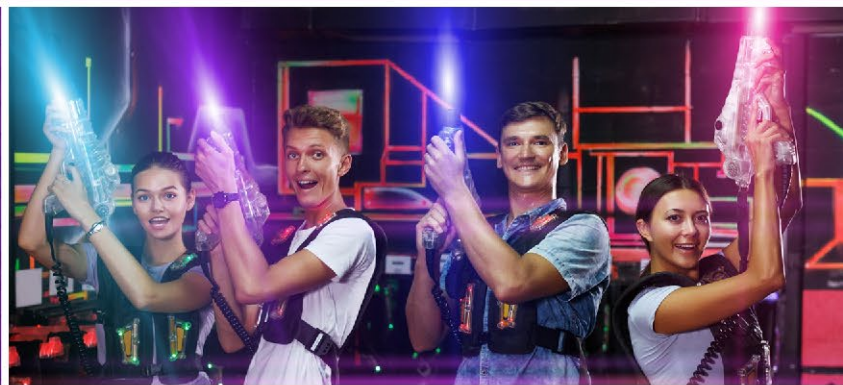

## ARCADE GAMES

It is a proven fact that arcade games increase hand-eye coordination. Arcade gaming even at its most basic level requires multitasking, which is a quick and effective decision making ability and so on. A lot of times during game play, the player is forced to make split second decisions, and follow up closely on such decisions. Whether you make the direct decisions all the time or not, the ability to make quick decisions will be developed over time in the brain.

## LASER TAG

Not only is laser tag good for your body, it's a unique, immersive experience that's mentally stimulating. Playing can help develop hand-eye coordination, strategic thinking, teamwork, problem-solving skills, and imaginative brainstorming. It's basically a high-tech game of hide-and-seek! It's also painless and safer than similar games like paintball (there are no projectiles in laser tag, and the lasers we use are safe), making it great for all ages.
